

At Fingerprints Delicafe, we are proud to produce good quality, individual food.

So whether it is the family get together, the business lunch that requires a bit of pizzazz or the breakfast networking event that could do with some warming up, let us make it special for you.

We love talking to our clients about what they would like to see on their platter so, don't let us restrict you to this menu – if you want anything that is not listed, please ask.
